The specialist for inspection, cleaning and maintenance of air ducts.

# Healthy Air:

## A pure necessity, but definitely not obvious

The air we breathe must be pure.  
Not just, but especially indoors.  
Fresh air has a major influence on your mood and concentration and not less important, it avoids health problems.

Therefore almost every building is equipped with a mechanical ventilation system.  
A continuous supply of fresh air would thus be guaranteed. However dirt from the air ducts hinders this. It even causes unhealthy air.

Air ducts are a breeding ground for fungi, bacteria, viruses, dust mites, odors and particulates.  
Your system will blow these into every connected area, if they are not removed regularly. 24 hours a day.

**The replacement of filters is not enough. You also need to have your air ducts cleaned periodically, to make sure that your system works best. Only then health problems can be prevented.**

Danduct Cleaner is your specialist for clean air. Look at [www.luchtkanaalreiniger.nl](http://www.luchtkanaalreiniger.nl) for more information about our unique services. Questions? Do not hesitate, just call us!

**Common complaints because of dirty air ducts are:**

- Dry, burning eyes
- Allergic reactions and mucosal irritations
- Headache
- Fatigue and concentration problems

## Many advantages, many cost savings

Air ducts should be cleaned periodically. It is proven that this will result in less health problems and a higher productivity. You can also use your ventilation box longer and it optimizes the condition of your building. So you save costs for sickness-or absenteeism, ventilation equipment and building maintenance.

## For whom is Danduct Cleaner suitable?

For anyone who wants to take responsibility for clean, healthy functioning air conditioning systems.

We treat channels in every type of building:

Pharmacies, boats and cruise ships, theaters, dance halls, event halls, town halls, hotels, office buildings, barracks, laboratories, restaurants, saunas, schools, gyms, theaters, shopping malls, residential complexes, hospitals, healthcare facilities, swimming pools.

**Less worries, more quality!**

Also installation companies make smart use of our services. We guarantee clean air ducts to each customer where we have supplied. Less worries and more quality for the installer.

## High-tech equipment

We have equipment for each system and channel type. Rotating brushes, part of meters long, flexible shafts, work effortlessly through all channels.

We also use i.a. Clean Air HVAC-PHI Cells. These purify the air and prevent growth of mold and bacteria in the heat exchanger. This keeps the original airflow maintained, without any loss of capacity.

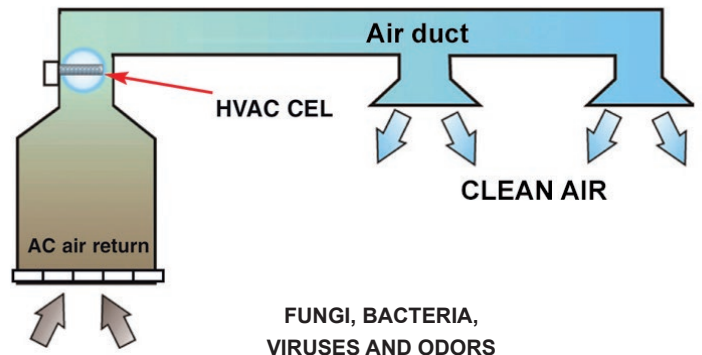

## How does Danduct Cleaner work?

Fast, clean, professional, personal and flexible:

- 1 Getting to know** You and your system.
- 2 Camera inspection** Precise diagnosis of debris accumulations and bottlenecks.
- 3 Planning** In consultation with you.
- 4 Preparation** I.a marking of valves control and closing of grids.
- 5 Cleaning** To brush and extract.
- 6 Completion** Operating system, any work traces erased.

## Individual report

Each duct cleaning is documented into a report, including the visual inspection with the mini camera. We know each client and property. Therefore, we provide fast and personal service with optimal results.

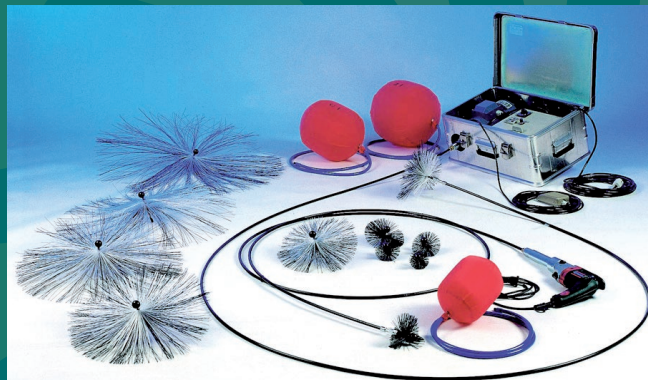

## Complete & Carefree

Danduct Cleaner can also help you with:

- Inspection and reparation of ventilation and heat recovery units
- Replacement of any type and size of filters
- Cleaning on a convenient contract basis

Full maintenance in good hands!

## Did you know that ...

... their are still many complaints about the quality of indoor air, despite excellent temperature control and good CO<sup>2</sup> levels? The cause is a high concentration of air pollution.

## And did you also know ...

... that it is not enough to replace and check filters and air handling units on an annual base?  
In fact, the hygiene in the ducts, is much more important for the air quality.

Cleaning can be done outside opening hours, but can also easily been done during office hours.

Danduct Cleaner gives you a visit when it suits you!
